Mrs. Mennucci's Classroom News

Friday, May 6th

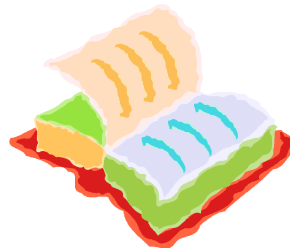

For the week of
5/9-5/13

News you can use:

- Band practice is on Monday, Tuesday, and Thursday next week. Niagara Falls trip on Friday!
- PE is on Tuesday and Thursday next week.
- Niagara Falls Parent Info Meeting on Wednesday, 5/11 in the auditorium. It will begin immediately after the band/chorus concert. Please look for a flyer to come home from Mrs. Veldhuizen soon. **It is very important that you attend this meeting if your child is going on the trip.**
- Please complete and return the emergency phone #/medical info sheet if your child is going on the Niagara Falls field trip. It is **VERY** important that we have this information, **EVEN** if you are chaperoning the trip. (This was in last week's folder, but some have yet to return it!)
- Please read the Niagara Falls packing list and Important Info (front and back) sheet in the Friday folder. Our trip is Friday, 5/13!
- Please fill out and sign the movie permission slip in the Friday folder. Place a check next to any movie that you would approve of your child watching on the road to/from NF. I need this sheet back by Wed., 5/11.

Math

We completed the Unit 10 test early this week, but we just began Unit 11 today. Due to the state ELA test this week, we were only able to complete lesson 11.1. Students will continue Unit 11, 3D Shapes, Weight, Volume, and Capacity, next week. We will only get through lessons 11.2 and 11.3 because of state math testing and the Niagara Falls trip.

Science/SS

We continued our work with our electrical circuits this week. Students took their make-up vocabulary quiz and results were much better! We also finished building and learning about series circuits. From there, we began creating parallel circuits. We are beginning to understand the differences between these two types of circuits.

Language Arts

Most of our ELA time this week was spent on our ELA test. The good news is... it is done! Thanks to all students for a job well done.

We will take the *Funny Side* unit test next Monday... this is not a test for which students can study. We will also begin our *Nature Guides* unit by reading Moon of the Alligators. We will keep writing our fractured fairy tales and we will be headed to the lab to begin researching an endangered animal. Lots to do next week in ELA!
